

Connect to the Internet

Products

iWorld offers a wide variety of products to cater for both the home and business user. We endeavour to provide you with enough information on all iWorld's products to help you make an informed decision on the Internet package most suited to you.

We can also tailor products to suit individual requirements.

Should you have any questions or queries, please do not hesitate to contact us.

Home & Family

iWorld has a variety of

Digital 56k Dialup

and

Broadband ADSL

services for your home to suit all your Internet requirements. There are also many added extras available including Virus scanning and Spam filtering.

Business

iWorld can provide your business with a strategic Internet solution. There are premium business plans available for broadband and dial up services, Domain registration, web and mail hosting and express backup.
